

**Cooperation Agreement between**  
**A.P. Ershov Institute of Informatics Systems**  
**Siberian Branch Russian Academy of Sciences**  
**Novosibirsk, Russia**  
**and**  
**Department of Computer Science**  
**University of Würzburg, Germany**

In order to promote friendship, mutual understanding and economic exchange between our two countries, and in order to promote exchange of scientific ideas, of scientific expertise, of scientists and of students between our two institutions, A.P. Ershov Institute of Informatics Systems and Chair of Computer Science I "Efficient Algorithms and Knowledge-Based Systems" agree to establish a partnership for academic and educational exchanges.

The two institutions have found it mutually beneficial to initiate cooperative activities in the following areas:

- Promoting of joint research projects in computation theory
- Cooperation in academic and educational research
- Exchange of faculty and students for lecturing, studies and research
- Exchange of theses, teaching materials and other scientific and academic literature

For carrying out the above programs, detailed agreements could be negotiated and laid down between the two parties according to demand and available financial funds. The agreement starts immediately after signing and continues until one of the sides declares its end.

Novosibirsk,  
  

(Prof. Dr. Alexander G. Marchuk,  
Director of the A.P. Ershov  
Institute of Informatics Systems)

Würzburg,

(Prof. Dr. Andreas Hotho,  
Head of Department of Computer Science  
University of Würzburg)
