Call for Papers
ParCo2013 PhD Symposium
Sep 10 - Sep 13, 2013
Munich, Germany

http://www.mac.tum.de/parco2013/
===

As a special forum for PhD researchers to present their work and results, we will organize a PhD Symposium at ParCo 2013. Contributions are welcome on all topics relevant for ParCo: developments, applications, and future trends in parallel computing for the whole range of platforms. For a more detailed list of conference topics, see the ParCo website.

We invite all interested PhD students to submit an extended abstract (2-4 pages) until May 17. See the "information for authors" website on http://www.mac.tum.de/parco2013/infoauthors on how to submit your work for the PhD Symposium.

Participants accepted for the PhD Symposium will receive travel support (approx. 50%-90% of the conference fee) from funds provided by industry sponsors. In addition, a best paper prize is planned for the best PhD Symposium paper and presentation.

IMPORTANT DATES
Deadline for extended abstracts: **May 17, 2013**
Notification of Acceptance: **June 7, 2013**
Full papers due: **July 31, 2013**
